

## Hendon School

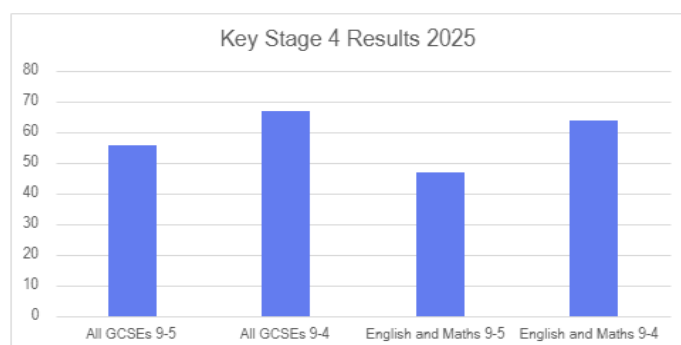

## Exam Results 2025

### Key Stage 4

We are delighted to celebrate the achievements of our students in this year's GCSE results. Their success reflects not only their commitment and perseverance but also the unwavering support from our dedicated staff and wider school community. As a fully inclusive and comprehensive school, Hendon continues to demonstrate the remarkable progress our students make year after year.

This year, we are especially proud to report a notable increase in the number of students achieving a **strong pass (grade 5 or above)** across a wide range of subjects, including English and Maths. These outcomes affirm our commitment to high expectations and personalised support for every learner.

### Key Stage 5

Our Sixth Form continues to thrive, offering a broad and ambitious curriculum that caters to students of all abilities. Whether pursuing A-levels or vocational qualifications, our students are supported to achieve their full potential and prepare for life beyond school.

This year's results show a clear improvement on last year, with more students securing top grades and progressing successfully to university, apprenticeships, or employment. Our academic pathways stretch and challenge the most able, while our inclusive approach ensures that every student is equipped for their next steps.
